

\$10 Dreams: Multimedia Works by Paris, Blue Gregor, Brian Denzel, NOnotnothing, Will James, Nigel Mackenzie

Exhibition on View: May 20, 2021 - August 18, 2021

Exhibition Statement:

This exhibition is a debut snapshot of the \$10 collective's overall artistic direction. Artworks included represent the ideology and creative universe in which the \$10 collective finds itself exploring. Most artworks collaborations between multiple members of the collective and are created during time spans as short as a single night and as long as three years.

Curatorial Statement:

\$10 is a collective of multi-disciplinary Rhode Island artists whose works spotlight contemporary modes of research like independent citizen journalism and curation and expressive media like photography, couture apparel design, painting and more. The \$10 collective is focused on cultivating new ways to engage in grassroots activism, community engagement, and fine art.
